

“Advances in Stem Cell Research”

Lecture Series on Mondays 15:15 – 16:00

Room: HMA 30

- 17.10.22:** Dr. Nina Graffmann (Institut für Stammzellforschung und Regenerative Medizin, Uniklinikum Düsseldorf): „Induced pluripotent stem cells as a model for human liver diseases“
- 07.11.22** Dr. Maria Dinkelacker (Institute of Pharmacy and molecular Biology, Universität Heidelberg): “Chromosomal clustering of tissue-restricted antigens in autoimmune diseases and its impact on cancer immunotherapy, a solution to follow up tissue development in the embryonal stem cells”
- 14.11.22:** Dr. Robert Zweigerdt (Hannover Medical School-MHH): “Healing hearts with human pluripotent stem cells?!”
- 21.11.22:** Prof. Dr. Katharina Fleischhauer (Universitätsklinikum Essen): “Immunobiology of allogeneic hematopoietic stem cell transplantation“
- 28.11.22:** Dr. Ivan Bedzhov (Embryonic Self-Organization research group, MPI for Molecular Biomedicine, Münster): “Developmental and stem cell biology of the early mammalian embryo“
- 12.12.22:** Prof. Dr. Dirk Strumberg (Marienhospital Herne): „Tumor-stem cells and stem cell-like cells: Implications for new therapeutic targets
- 09.11.23:** PD Dr. Mortimer Gierthmühlen (Knappschaftskrankenhaus Bochum): “Vagal Nerve Stimulation - Indications, research and perspectives“

All are welcome

As a part of master program Molecular and Developmental Stem Cell Biology
Organized by Prof. B. Brand-Saberi, Department of Anatomy and Molecular Embryology
